6"x6" RECYCLED GLASS TILE

STYLE TILE

THE PROCESS:

Style Tile is crafted by using a unique sublimation process of high temperatures & pressure to transfer the pattern onto the Recycled Glass tile. With Maison's proprietary process each tile can be used in high traffic floors and also be submerged in swimming pools without compromising the integrity of the design -including fading and the deterioration of details. This process was created to ensure you get to enjoy your tiles for a lifetime.

Driven by fresh color stories and novel patterning.
