Patterns inspired by the playful nature of Vaudeville theater, Maison Surface's Restoration collection whisks you on a trip back in time to late 19th century France. The patterns take their cues from the energetic acts of the theater: dancers, comedians, musicians, magicians, acrobats and minstrels. Meanwhile, the new color inspirations derive from the novel naturals made possible by our proprietary Effect print process. If you are looking for designs with unmatched spirit and gusto, in the most trending colors we offer, Restoration Effect is a guaranteed hit.

THE PROCESS:

Restoration Effect is crafted by using a unique sublimation process of high temperatures & pressure to transfer the stone image onto the Recycled Glass tile. With Maison's proprietary process each tile can be used in high traffic floors and also be submerged in swimming pools without compromising the integrity of the design -including fading and the deterioration of details. This process was created to ensure you get to enjoy your tiles for a lifetime.
